DETAILED ACTION

Specification

1. The use of the trademark VELCRO® has been noted in this application. It should be capitalized wherever it appears and be accompanied by the generic terminology.

Although the use of trademarks is permissible in patent applications, the proprietary nature of the marks should be respected and every effort made to prevent their use in any manner which might adversely affect their validity as trademarks.

Drawings

2. The drawings are objected to as failing to comply with 37 CFR 1.84(p)(4) because according to the specification, the reference characters "46" and "48" are used to designate the hook strips on the back of the boots. Figure 4, however, labels this strip as "45". Corrected drawing sheets in compliance with 37 CFR 1.121(d) are required in reply to the Office action to avoid abandonment of the application. Any amended replacement drawing sheet should include all of the figures appearing on the immediate prior version of the sheet, even if only one figure is being amended. Each drawing sheet submitted after the filing date of an application must be labeled in the top margin as either "Replacement Sheet" or "New Sheet" pursuant to 37 CFR 1.121(d). If the changes are not accepted by the examiner, the applicant will be notified and informed of any required corrective action in the next Office action. The objection to the drawings will not be held in abeyance.

Claim Objections

3. Claim 29 is objected to because of the following informalities: In line 2, the term "boot" should be replaced with --boots--. Claims 30-31 incorporate this objection.

Appropriate correction is required.

Claim Rejections - 35 USC § 102

4. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

5. Claim 1 is rejected under 35 U.S.C. 102(b) as being anticipated by U.S. Patent Number 5,908,206 to LoPresti, Jr.

LoPresti, Jr. discloses a positioning kit capable of use for limiting movement of a patient's legs, comprising:

two boots (42a, 42b), each capable of being secured around a foot and a lower leg of a patient; and

at least one fastening strap (32a', 32b') capable of securing said boots together (see Figure 7).

For a discussion of the patentable weight afforded to functional language in a claim, please see MPEP 2114. "While features of an apparatus may be recited either structurally or functionally, claims directed to an apparatus must be distinguished from the prior art in terms of structure rather than function. In re Schreiber, 128 F.3d 1473, 1477-78, 44 USPQ2d 1429, 1431-32 (Fed. Cir. 1997)... "[A]pparatus claims cover what a device is, not what a device does." Hewlett-Packard Co. v. Bausch & Lomb Inc., 909 F.2d 1464, 1469, 15 USPQ2d 1525, 1528 (Fed. Cir. 1990)." "A claim containing a "recitation with respect to the manner in which a claimed apparatus is intended to be employed does not differentiate the claimed apparatus from a prior

Art Unit: 3743

art apparatus" if the prior art apparatus teaches all the structural limitations of the claim. Ex parte Masham, 2 USPQ2d 1647 (Bd. Pat. App. & Inter. 1987)."

6. Claims 1, 32 and 35 are rejected under 35 U.S.C. 102(b) as being anticipated by WO 97/40805 to Pevchenkov.

Pevchenkov discloses a positioning kit capable of use for limiting movement of a patient's legs, comprising:

two boots (Figure 1), each capable of being secured around a foot and a lower leg of a patient; and

at least one fastening strap (10) capable of securing said boots together.

Pevchenkov anticipates the claimed method of limiting movement of a patient's legs, wherein the boots are secured together by securing fastening straps to each boot.

Allowable Subject Matter

7. Claims 2-10 and 33-34 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

8. Claims 11-28 are allowed.
